Summary

Results-oriented Software Developer with 1.6+ years of hands-on experience in designing and developing full-stack web applications. Proficient in building modern, responsive client-side interfaces using Angular, JavaScript, HTML/CSS and robust server-side solutions with C#, .NET MVC, Web API, and Entity Framework. Strong advocate for clean code, OOP principles (inheritance, polymorphism, abstraction), and implementing MVC/MVVM patterns. Actively contributed to all phases of the Agile/Scrum development lifecycle, including unit testing with Jasmine/Karma, and have a working understanding of CI/CD pipelines. Eager to apply a solid technical foundation to create efficient, scalable software.

Technical Skills

Programming Languages: C#, JavaScript, TypeScript, SQL

Web Frameworks: ASP.NET Core 8 (MVC & Web API), ASP.NET MVC 4.8, Web API 2

Frontend Technologies: HTML5, CSS3, Bootstrap 5, jQuery, Angular

Data Access: ADO.NET, Entity Framework, LINQ

Database: SQL Server

Version Control: Git, GitHub

Development Tools: Visual Studio 2022, VS Code, SQL Server Management Studio

Principles & Patterns: SOLID, Design Patterns, OOP

Operating Systems: Windows, Linux

Testing & API Tools: Swagger UI, Postman

Experience

Software Engineer

July 2024 – Present

Square Vision Technologies, Pune

- Developed and maintained full-stack applications using ASP.NET Core 8 (MVC & Web API), EF Core, and SQL Server, following clean architecture principles.
- Designed and implemented RESTful APIs consumed by Angular frontend, improving data consistency and response handling.
- Optimized SQL queries and stored procedures, resulting in 25% performance improvement.
- Implemented SOLID principles and Dependency Injection, improving code maintainability and testability.
- Actively participated in Agile ceremonies, code reviews, and sprint planning.

Full Stack .NET Intern

July 2023 – November 2023

Vhaash Technologies Pvt. Ltd., Pune

- Built responsive UI using HTML5, CSS3, Bootstrap, JavaScript, and jQuery.
- Integrated REST APIs with frontend to enable real-time data updates.
- Collaborated with senior developers to implement client feedback and UI improvements.

Projects

Transfer Convey | ASP.NET Core 8 MVC & Web API

July 2024 – Present

- Designed and developed a scalable ASP.NET Core 8 MVC & Web API application following layered architecture.
- Implemented Repository Pattern and Dependency Injection to reduce coupling and improve flexibility.
- Built and tested RESTful APIs using Swagger UI and Postman.
- Integrated database using EF Core, ensuring optimized data access and validation.
- Delivered features under tight deadlines, improving system reliability and reducing downtime.

Education

Bachelor of Engineering (Electronics & Telecommunication)

June 2024

Savitribai Phule Pune University

GPA: 8.0 / 10
